EXPERIENCE

Apr 2024

Freelance Web Developer, Spirit Pharma France

Website : spirite-pharma-france.vercel.app/

Complete overhaul of Spirit Pharma France's website to improve user interface, performance and overall site efficiency.

- Redesign and development of the Spirit Pharma France website using **Next.js, Tailwind CSS**, and **Sanity CMS**.
- Creation of a modern, responsive design, improving user experience and site performance.
- Delivery of a high-quality, scalable solution that meets the customer's specific needs and strengthens its online presence.

INTERNSHIPS

Feb 2024 — Jun 2024

Web Developement and Consultant | Cyber Isparta Youth Center   Isparta

I participated in the development and consulting of various web projects. I used my **visual design skills** and **UI/UX knowledge** to create dynamic, user-centric web solutions. In addition, I have effectively managed databases and used **JavaScript**, **React** and databases (**Firebase**, **MongoDB**) to build efficient and scalable web applications..

- I designed and implemented visually appealing and functional websites that met the organization's specific needs..
- Provide consulting services to enhance user experience and optimize web solutions for improved performance.
- Collaborate with cross-functional teams to gather requirements and deliver high-quality, high-impact web projects.

Jul 2024 — Aug 2024

Computer technical services | Barut Technology   Istanbul

As part of Barut Tecjnology's IT technical service team, I was responsible for providing technical support and maintaining computer systems and networks. I diagnosed and effectively resolved hardware and software problems, ensuring the smooth running of the organization's technological infrastructure.

- Provide technical support and troubleshooting for IT systems, resolving hardware and software problems quickly and efficiently.
- Install and configure hardware, software and networks to ensure optimum performance and security.
- He worked with the IT team to implement system upgrades, ensuring that the organization's technological infrastructure remained up to date.
